**A Project for Building a Mosque and a School in Sydney, Australia
An Opportunity to Trade with Allah (subhanahu wata ala)**

To all members of the Muslim community in Australia
To all charitable organizations inside and outside Australia
To all supporters of Islamic projects and institutions

Assalamu alaykum warahmatu Allahi wabarakatuh

I am pleased to introduce to you in these few words the Australian Islamic Mission and invite you to support its above mentioned project. The Australian Islamic Mission (AIM) is a distinguished organization with a very good reputation among the members of our community.

The Australian Islamic Mission is one the successful organisations in reflecting the balanced image of Islam to the Australian society and to the Muslim community. Its members are known for their commitment to Islam and by their Islamic knowledge and ability to communicate the message of Islam (addressing Islam in English in addition to Arabic). It is also distinguished by its wide activities which reach men and women, the young and the old. Its members extend their activities from two mosques in the largest two cities in Australia, Sydney and Melbourne.

Their branch in Sydney has overcome all the hard and multiple difficulties and managed to obtain a Council approval to build a mosque and a school in the Punchbowl area. I am confident that this project will have its good and fruitful impact on the community and thus supports well the Islamic identity there. For this reason, I invite you all to contribute to this vital project, especially as the approval has been conditioned by building three underground levels for car parking and that raises the cost of the project.

I ask Allah (subhanahu wata ala) to multiply His rewards to all those who contribute to this vital and important project. "And whatever you spend of good, it will be repaid to you in full, and you shall not be wronged" (Q2:272)

The Mufti of Australia and New Zealand
Sheikh Fehmi Al-Imam
